## Beaver Lodge Sports Assn. Decide at Enthusiastic Meet To Hold Sports Mon., May 25

BEAVER LODGE, April 28.—At the annual meeting of the Beaver Lodge Sports Association, held in the Victory Hall on Friday night, it was enthusiastically decided to hold the annual sports on May 25 instead of May 24, which falls on Sunday this year.

President Rev. Geo. A. Siedels, who occupied the chair, welcomed the large attendance and explained that the Sports Association is an organization to sponsor sports and stampedes. He thanked all those who had contributed to the sports, either by donations or by service on the grounds or helped in any way in making the various events a success.

Following the submitting of the minutes of the last meeting, which were approved, the financial statement was read and showed a small balance in the bank.

The committee recommended that the sports and rodeo in future be held at separate times, for the reason that the two held on the same dates was too big an order for the organization to handle.

### Officers

The following officers were elected: President—Newton Grimmer.

First Vice-President—Grant McKay. Second Vice-President—Nick Naeffgen.

Secretary—Ed. Lovan. Treasurer—D. E. Gaudin.

The new president, Mr. Grimmer, who filled the position of secretary for the three previous years, thanked the meeting for the honor and said he would try to fill the office to the best of his ability.

A vote of thanks was tendered the retiring officers.

It was decided, after considerable discussion, that all those participating in the events should pay admission, which was set at 35 cents.

The setting of the age limit for junior baseball players was left in the hands of the committee.

It was decided to again employ the town band for the coming sports.

## O. E. Grant, Grande Prairie, Is Seriously Injured At Coast

O. E. Grant of Grande Prairie, who is visiting in Vancouver, was seriously injured on Saturday, April 18, while riding in an automobile.

H. V. McLeod, who returned from Vancouver on Friday, May 3, said the following story to The Tribune reporter:

"Mr. Grant, my uncle (W. P. McLeod), and Mr. Staines, the latter formerly of Grande Prairie and my self took a car ride to look over a property on the coast. We were in a car when the accident occurred, took the following story to The Tribune reporter:

## Beaver Lodge B. B. Club Concert and Minst. Show May 8

BEAVER LODGE, April 28.—The Beaver Lodge B. B. Club are putting on a minstrel show and concert, which will be followed by a dance, in the Victory Hall, on Friday, May 8. The proceeds will go towards financing the club during the coming season.

Ralph Currell and Billie Johnson, who have staged many successful shows, will have charge of the minstrel department.

The concert will include musical numbers, tumbling turns, Indian club swinging, etc.

The baseball players will sport snappy new suits this season in colors of white and black.

Practically all the members of the 1935 team are still in town and district and with some additional promising players, Beaver Lodge team promises to give a good account of itself the coming season.

## Stock Shipments Continue To Be Heavy From North

Stock shipments from the Grande Prairie district and west as far as Dawson Creek, have been heavy. Thirty-one carloads left Grande Prairie on Sunday, six of which were loaded at this point. Six cars and the balance hogs.

Six carloads were shipped from Harty's night from Beaver Lodge, two from Wembley and one at Dinsdale.

Mr. Dakin, road superintendent, informed The Tribune reporter that there would be at least 40 cars in the train before it reached Edmonton.

Bacon hogs brought \$6.75 at this point.

Cattle demanded the shipment from the west, which also included a very load of horses.

## Sports At Buffalo Lakes To Be Held Wed., June 10th

BUFFALO LAKE, April 27.—At a joint meeting of the Buffalo Lake and the Buffalo-Lake Curling Club held last Friday night at the U. F. A. Hall, it was decided to hold the Buffalo-Lake Sports on Wednesday, June 10.

The sports committee are no longer hard to make a street day a red letter day. A Big Game and Better Sports, is the slogan.

Membership cards were ordered printed and an aggressive membership campaign will be launched shortly.

The committee recommended that the sports and rodeo in future be held at separate times, for the reason that the two held on the same dates was too big an order for the organization to handle.

The following officers were elected: President—Newton Grimmer.

First Vice-President—Grant McKay. Second Vice-President—Nick Naeffgen.

THE CORONATION CHAIR IN THE KING'S CHAPEL

The coronation chair, which the King's painter, at the command of Edward I (1300-1301), to contain the body brought by the King from Scotland, will be used by King Edward VIII when he is crowned during the Coronation in May, 1937. In this chair every Sovereign has been crowned since King Edward II. The famous stone is under the seat of the chair.

That is wrong. I never trapped in the area referred to, but I paid a man by the name of Moses, who is living on the reserve at Sturgeon Lake, out of my own pocket to pick up a highway from Sturgeon Lake to Whitecourt.

"I would like to meet all those who are suggesting routes from here to Edmonton and compare notes with them. I have travelled over the proposed Whitecourt route and have first-hand knowledge on the general conditions of the country which this proposed highway would traverse."

Mr. Monkman then went on to explain that in 1908 he circulated a petition, which was largely signed, in the Grande Prairie district, and which urged that the provincial government construct the Whitecourt Highway, adding that Bill Hay and himself presented the petition to the Minister of Public Works, who promised to construct the highway.

"However," went on Mr. Monkman, "the petition did not get the proper support from the people of the Grande Prairie district, and no action was taken."

At a meeting of the entertainment committee of the Board of Trade, of which George Chard is chairman, held last Tuesday night, the following resolutions were made with P. Hickman and F. Spicer, directors of the musical comedy, "The Case of the Season," which was presented with great success recently by St. James' Society, to present the play again in Grande Prairie on May 11. In view of the fact that the Board of Trade has in view the raising of money to replenish its rather depleted treasury.

There will be several changes and additions in the offering, which will include new dances, new music and new dances.

Full details will appear in the next issue of the Tribune.

G. P. GARAGE DISTRIBUTORS FOR ALBERTA COAL STOKERS IN SOUTH PEACE RIVER

Having completed all arrangements with the Grande Prairie Garage Company, Limited, as distributors in south Peace River for the complete line of Oliver type and heavy duty Alberta coal stokers, G. E. Knechtel, sales representative for the manufacturing firm, will leave on Friday night's train for Wembley and Peace River.

Next week in Grande Prairie, reported that several large stokers of this type were associated for some time with the Grande Prairie Garage Company, Limited, of Edmonton, were to be installed in this district.

ASSOCIATED WITH SCADDING

Jim Duse, prominent dairyman of Toronto, arrived at Beaver Lodge on Friday to visit his brother Cliff.

His visit was associated for some time in business with Alford Scadding, who has taken over the mine at Moose River, Nova Scotia.

CANADA'S OLDEST MAN DIES

CAMROSE, April 29.—The funeral of POCOS, Indian buffalo hunter and guide, who held here Monday morning. Probably the oldest man in Canada, Pocos died here Thursday at an age he claimed to be 130 years.

SENTENCED TO ONE YEAR

Found guilty on fifteen counts for forgery, T. W. W. was sentenced by Magistrate Galloway to serve a prison term of one year.

MAY 6th Closing Date For Entries To Festival

Attention of those entering the Grande Prairie Musical Festival is called to the fact that all entries must be in the hands of the committee by May 6th.

All entries should be on the prescribed forms, which can be obtained from the secretary.

Some of those interested in the project are also interested in an oil

company and trucking organizations and contend that the saving that would result by the shorter route from Peace River to the Peace River would eventually compensate for the construction of the proposed highway.

Mr. Wright stated that they have all the data on the Monkman Pass and know the best spots. They are taking up with them moving picture equipment to further collect data along the way through the pass.

Mr. Wright expressed the hope that the north country would give wholehearted support to the proposed project.

While in Vancouver Mr. Spencer met Johnny Leifberg, who is in business at Mission City, and Mike Dransky.

In Edmonton he met Bill Ray and Alex. McDonald, both formerly of Grande Prairie.

BY-ELECTION JUNE 22

EDMONTON, April 22 was confirmed as the date for by-elections to fill the legislative seat left vacant by the resignation of Mr. Justice W. R. Hewitt, to be held in the Supreme Court bench, by Premier Aberhart Monday.

## Beaver Lodge Delegation Ask That Hospital Board Implement 1928 Promise

### Social Crediters To Hold Convention On June 17th

At a meeting of the Grande Prairie Social Credit Constituency executive held in Grande Prairie on Friday, April 24, it was decided to call a convention to be held in Grande Prairie on Wednesday, June 17.

Election of officers will be held and business pertaining to the constituency will be dealt with.

An invitation will be extended to Premier Aberhart and Hon. D. C. Manning to attend the convention.

### Ask Seed Testing Plant For Peace River Country

The following is a resolution which will likely be brought before the summer convention of the Grande Prairie Social Credit Constituency by the U.F.A. Seed of Two Rivers:

"To J. C. Gardner, Minister of Agriculture, Ottawa, Canada.

"During the past season there has been considerable delay and dissatisfaction in the seed testing at Calgary. We have no doubt they have done their best with the samples they have been called upon to test."

"The fact remains, however, that the Calgary plant was unable to handle the situation, and we think it would be in the general interest to have a subsidiary seed testing plant established in the Peace River country, preferably at Peace River, or near the Peace River Sub-Station."

"We trust that you will give this matter your earnest consideration and that you will find it possible to have such a suggestion put in operation here by next fall."

On the suggestion that for the U. F. A. conventions of the northern constituencies made outside of the province, it was suggested that a bill be introduced in the Royal Bank by Mr. J. W. Neil, who was in the chair, explained the object of the meeting.

He stated that the organization had arrived at an impasse so far as money was concerned and the meeting was called to order what could be done in this regard.

He pointed out that the machine had been built to a point where now an engine was necessary before further progress could be made.

Mayor Tooley, who was in attendance, said that he was wholly satisfied with the building of the Peace, which would mean that the Grande Prairie very much in the public eye.

As a means of getting quick action on the subject of a committee to canvass the town for donations and to make a list of the names of the donors, the committee, Cliff Black, George Rodgers, Max McQuarrie, and J. W. Neil.

Jack News of Rossmore made a special trip in his plane to be present at the meeting.

Attention was drawn to the fact that if the necessary money is forthcoming that the Peace River will have the honor of being the first place in Canada at which a machine of this type was constructed right on the ground.

A few dollars here and there will help complete the Peace, and The Tribune is making a special appeal for funds on the part of the Flying Club.

### Dennys Law Is Appointed Clerk Of Court at G. P.

Dennys G. Law, son of Mr. and Mrs. E. G. Law of Grande Prairie, was recently appointed clerk of the court at Grande Prairie, to take the place of Justice T. W. Neil.

Dennys graduated from the Grande Prairie High School in 1934, when he was fifteen, following which he took a business course at the Grande Prairie Business School.

He was an outstanding player on the Grande Prairie hockey team last season and was a member of the Grande Prairie Peace River hockey team.

He was elected president of the Grande Prairie Hockey Association and is also a member of the Grande Prairie Flying Club.

### HORSE ELECTROCUTED

A horse belonging to Bill Thibault was electrocuted on Monday in Albert Parton's yard, Grande Prairie, by coming in contact with a live wire which was lying in the water.

The horse was lying in the water when it came in contact with the live wire.

The horse was lying in the water when it came in contact with the live wire.

### Case Able Presented For The West Area—Mrs. Little Puts Up Plan For The Women Of The District—Chairman Of The Board Promised That Request Would Receive The Board's Most Sincere And Earliest Consideration

A delegation from Beaver Lodge, composed of W. D. Albright, G. K. Shaw, W. Adams, R. H. Hild and Mrs. Little, interviewed the Grande Prairie Hospital Board on Wednesday, April 23, and asked that the promise made by the Board in 1928 be implemented and a sub-hospital be constructed in the west area.

The delegation received a most courteous and attentive hearing.

C. G. Post, member of the Board, after introducing the delegation, reviewed the history of the west area. He said that the people in the west area voted themselves into the hospital as a duty, because they felt the necessity of a central hospital to look after the needs of this part of the Peace River.

A motion passed in 1928, whereby the Hospital Board pledged itself that as soon as conditions permitted, the hospital would be constructed.

## Timely Hints From the Beaverlodge Sub-Station

By W. D. Wright

"IT IS A PLEASURE AS WELL AS A DUTY TO BEER"

Reluctant spring in winter's lap has tarried. Impatient men with anxious fears are hurried. Experience bids us lay aside our worry. Anxiety contributes naught to hurry. Yet not in dalliance nor idle toyings! Fill up the days, with fruitful work employing. The "unforgiving minute," swiftly fleeting. Prepare for Opportunity's sure greeting.

An easy start for a strong finish.

Cross-drill an extra quota of seed on parts of fields where wireworm damage is especially anticipated.

The writer is one of those who long for an early opening of seedling but he likes to improve every working minute when the hour strikes.

An experimental station meets many demands beyond those of purely local.

## Welcome, General Improvement!

The key man in the whole situation is General Improvement. He's bringing men who roll their own back to the finest tobacco there is — Ogden's. Fragrant — say, that's the middle name of Ogden's Fine Cut! It rolls a better and more satisfying cigarette every time. And when you use "Chantecleer" or "Vogue" papers with Ogden's you've got the combination that wins every time.

## OGDEN'S FINE CUT

P.S.—Your Pipe Knows Ogden's Cut Pipe

rate of wireworm injury to small grains has been reduced by their use. The same effect can apparently be produced by the use of wireworm packing immediately after seeding, but that would involve a separate project reaching from Florida to Alaska, the object being to study the effect of latitude upon the blooming period and general behaviour of the wireworm. Results are very interesting.

A muddy dooryard and barnyard are an abomination unto the housewife and the husbandman. Query is, how to keep out of the mud? Some use the edge of a sprayer-out wood-plank, but newly placed boards are better for several reasons. Cobblestone and gravel are available in certain localities. Coal ashes may be employed if free of salts contained by the waste occasionally burned. Fittings should be watched but not on every building site is it easy to secure.

A cross drill with some heavy-running disks is a more efficient impediment to efficient work. These do not clear lumps or trash well nor do they cover the seed evenly. Taken apart and soaked with gasoline they may be found to have old grease and dirt caked in the disks. Wash and in the older styles of drills some of the dust caps or other parts may be worn. A thorough clean out, accompanied by renewal of worn parts and a fresh filling with a good grease takes time but pays.

Consider the hired man and make reasonable allowance. He is probably a young man or at least new to the layout. Quits, wrinkles, grooves and short cuts which the proprietor has learned point by point through years of experience with his particular farm, implements and live stock are unknown to the new man. He has to learn these all on his own. Learning is bound to be costly. If he is incapable or careless it may be very costly. Yet patience is called for. Best results are achieved when the farmer is personally on the job, working closely with his helpers. Shiny metal with moist earth adhering to its surface soon corrodes. A Sub-Station rule—by no means easy to enforce where new men are taken from time to time is that the shovel share, disk plate, cultivator tooth, grade and hoe is to be cleaned off before being left at night. When the implement or tool is laid by after completion of a job its shiny parts are rubbed over with an oily rag, applying a very thin film of protective oil or grease. Even the show of ditch runners may well be greased before being stored for the summer—when ever that is.

Press Drill or Packer Attachment

For Wireworm Control

Questioned about the usefulness (for wireworm control) of a certain new type of packer, Prof. K. M. King, of the Dominion Entomological Laboratory, at Saskatoon, Sask., replies thus in part to a Peace River correspondent:

"We recommend the press drill and press attachment for several reasons. First of all, both observation and special experiments clearly indicate that under many circumstances the

spacing of caryopsis from seed, we would appreciate advice as to the spacing of the rows and seed—J. C. Dawson Creek, B.C.

Ans.: The spacing of caryopsis depends somewhat upon the purpose for which the straws are being grown. For a hedge, twelve or fourteen inches is about right and only a single row should be planted. At the beginning of the second season from seed the young plants should be spaced back to back, two inches apart, so that they will form a close hedge. For a tall-growing windbreak hedge, a denser spacing is desirable. For a tall-growing windbreak hedge, a denser spacing is desirable. For a tall-growing windbreak hedge, a denser spacing is desirable.

Germinating Juniper Seeds, Etc.

1. Is the Red-leaved barberry hardy in Alberta?

2. I have juniper seed, the dwarf-growing kind that grows wild in the mountain forests of Oregon. Should I plant them in sand to start, or will they grow?

3. Is the Lombardy poplar hardy in Alberta?—(Mrs.) J. M. F. Kealey, Alta.

Ans.: 1. We do not know of any variety of juniper seed that grows wild in the mountain forests of Oregon. Should I plant them in sand to start, or will they grow? 2. The Lombardy poplar is hardy in Alberta. (Mrs.) J. M. F. Kealey, Alta.

2. The very latest information from the University of Alberta is that germinating juniper seeds states:

Seeds require two years to ripen. Seeds ripe and very dry at low temperature. Germinates best at 41° F. will not germinate above 50° F. but goes into a second dormancy. Deseed, outside of the after-ripening period decreases the time required about ten days. (The seeds require a low temperature under moist conditions. In order to break the first period and start the dormant embryo into growth, it is known as after-ripening. The seed should be sown in spring.)

3. It is very doubtful whether the Lombardy poplar is hardy this far north. The Morden Station has listed it as suitable at that point, however, J. H. C.

Good Grain Along The Sixtieth Parallel

Good grain has again been grown by co-operative experimenters along the sixtieth parallel of latitude. In 1935, the University of Alberta, Alberta (Lat. 50 deg. 50 min. N.) cut his barley on July 25, his oats and wheat on August 21. The University of Alberta, Alberta (Lat. 50 deg. 50 min. N.) cut his barley on July 25, his oats and wheat on August 21. The University of Alberta, Alberta (Lat. 50 deg. 50 min. N.) cut his barley on July 25, his oats and wheat on August 21.

At the Hay River Station, the wheat headed July 18 and was cut September 2. Oat barley headed July 22 and was cut August 26. Oat barley headed July 22 and was cut August 26. Oat barley headed July 22 and was cut August 26.

All samples received from the other co-operators were passed on to the Official Grain Inspector at Edmonton, who ventures opinion only on those small samples submitted. Following are the results of his examination.

Grades of Grain Grown in 1935	Hay River Station	Hay River Station
Variety	Fort Fitzgerald	Hay River Station
Prelate Wheat	2°	No. 5
Oat Barley	3 E.C.W.	3 C.W.
Peatland Barley	3 E.C.W.	3 C.W.
Carlier Oats	Special Feed	46 lb.
Legacy Oats	do.	46 lb.

## FINANCE

### A SOCIAL CREDIT VIEWPOINT

To the Editor of The Tribune.

It is interesting to see you try to show how all money came out of the bank originally as a loan to producers. The writer is a Peace River correspondent. The writer is a Peace River correspondent. The writer is a Peace River correspondent.

they deposit it as a claim against the bank, or in a savings bank or post office bank. That sounds like an even more government scheme than the one I have just described. It is a bit more human than they used to be. If they do kick you out of your home you can go on relief and get something for food, clothing and shelter.

Now there are other places to transfer holdings to, but the cleverest one is the life insurance company. They come to the little holders and tell them "we have a better way of doing it. They fall for the insurance man's line and he gets the purchasing power, or credit money transferred to the company's account and he gives the little holder what is called an insurance policy for the consideration. When the insurance company gets the credit money transferred to their account, then they enter the money-lending business in competition with the bank. They created the credit money in the first instance. Now note the difference of the bank interest rate and the insurance company's interest charge or the interest charge of the individual member who lends money. This has been withdrawn through writing. The holder is now paid to make the credit to pay his employees and other overhead costs, where the insurance company and other private money lenders have not. The only way they can pay their employees is by digging into the credit money that has been transferred to their account by the policy holder or small holder. Of course we know that insurance companies collect some interest on their investments which they can draw on as well to pay their overhead costs.

Not now that this money paid out in salaries and overhead costs goes to buy producer goods, which are sold below cost of production (according to the industrialists). When the producer gets his money he goes to the bank and pays it on his loan and this credit money is cancelled out of existence, or, of course we have to take into consideration the fact that the credit money when loaned by the insurance or investment company produced interest or using an hoarded purchasing power. And as I see things, the bank, the industrialist and the laborer lender service and produce goods and all other human beings live off their efforts.

Now we see all the fear, misery and poverty caused by our system, which results in the hoarding of money or purchasing power, while it penalizes those who produce goods, which are sold below cost of production (according to the industrialists). When the producer gets his money he goes to the bank and pays it on his loan and this credit money is cancelled out of existence, or, of course we have to take into consideration the fact that the credit money when loaned by the insurance or investment company produced interest or using an hoarded purchasing power. And as I see things, the bank, the industrialist and the laborer lender service and produce goods and all other human beings live off their efforts.

And that is my definition between bank interest or service charge and interest or using an hoarded purchasing power. And as I see things, the bank, the industrialist and the laborer lender service and produce goods and all other human beings live off their efforts.

Now we see all the fear, misery and poverty caused by our system, which results in the hoarding of money or purchasing power, while it penalizes those who produce goods, which are sold below cost of production (according to the industrialists). SPECTACULAR CRASH AT LIFE SAVING CARNIVAL

Above is a remarkable photograph taken during a surf boat race at a life saving carnival at Newcastle, Australia, when the three boats came into collision. Every boat capsized and all the crews were thrown into the surf. Fortunately no one was seriously injured.

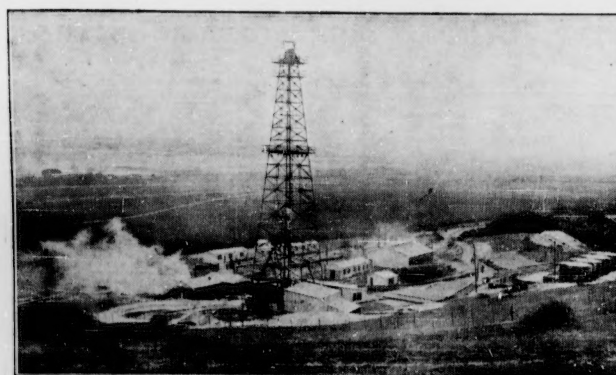

YOUTH OF ITALY CELEBRATE FOUNDATION OF THE "BALILLA"

It Duce reviewed thousands of uniformed boys and girls between the ages of six and eleven, in Rome, during the celebrations of the tenth anniversary of the foundation of the "Balilla" or juvenile corps of Italy. In the picture the Balilla Leg on marching down the Via del Impero toward the Piazza Venezia for the address by Mussolini.

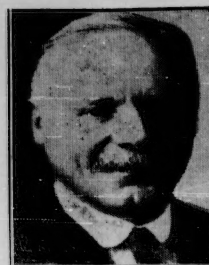

ANGLO-SCOTTISH SOCCER MATCH ENDS IN DRAW

Walker, the Scottish International, can be seen as he scores a goal from a penalty, with Zagat, the English goalkeeper, just failing to reach the ball. The game ended in a 1-1 draw, which gave Scotland the championship.

OIL DRILLING IN ENGLAND ASSUMES EXTENSIVE PROPORTIONS

The inauguration of the drilling of the Anglo-Iranian Oil Company's first well in England took place recently at Paulsgrove, near Portsmouth. Here, when Captain H. F. C. Crookshank, British Secretary for Mines, officiated, here is a general view of the workings and derrick.

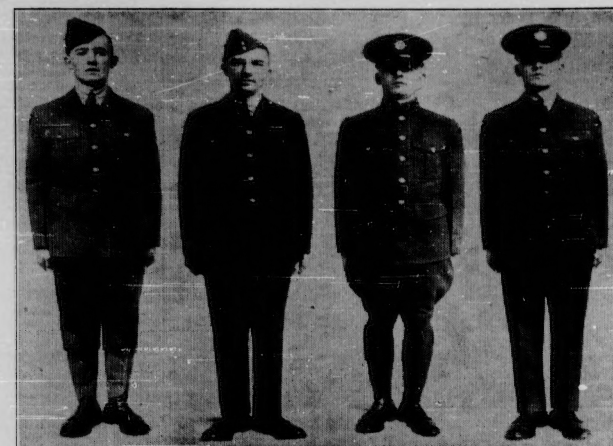

MAY BE GOVERNOR

Hon. R. R. Bruce, former Lieutenant Governor of British Columbia, who is reported to be the likely successor to Hon. Fortham Johnson, present holder of the post, who is retiring because of ill health.

FUTURE OF THE SUEZ CANAL

The year 1906 is already causing some worry to the directors of the Suez Canal. That is the year when, according to the terms of the 99-year concession given by the Egyptian government when the canal was built, possession reverts to Egypt. According to an article in the current issue of the Journal of the Canadian Bankers' Association, the Egyptian government in 1940 approved in principle an extension of the concession to 2008, in return for a cash payment of \$4,000,000 and an increasing share of the net profits after 1921. This proposal, however, was defeated in the General Assembly and the control of the canal after 1908 remains uncertain.

IMPORTANT CHANGES IN ROYAL AIR FORCE UNIFORMS

As a result of observations and trials, important modifications in the service uniform of officers and airmen of the Royal Air Force are to be made. The most important changes are the abolition of breeches and puttees and the adoption of a blue field service cap for all personnel, similar to that worn by the Royal Flying Corps. The cap can be adapted for use as a flying helmet, and will be regularly worn on normal duties. Trousers will in future be worn by all the ranks instead of breeches and puttees. A blueweb gaiter has, however, been approved for use in inclement weather. It is thought that the alterations and simplicity of the new uniform will help the comfort and efficiency of the personnel. Left to right: the new uniform, walking dress with puttees for wet weather, and without puttees; the old walking-out uniform with puttees, and the new walking-out uniform with peaked cap, blue-grey collar and black tie.

Margareta Brambeck

PRINCE MAY MARRY DRESSMAKER

Sweden's royal family, disturbed once in recent years by the marriage of a princely son to a commoner, may find history repeated if rumors are true that Prince Bertil, whose grandfather is King Gustav of Sweden, is to marry a commoner, the beautiful Margareta Brambeck, Stockholm dressmaker.

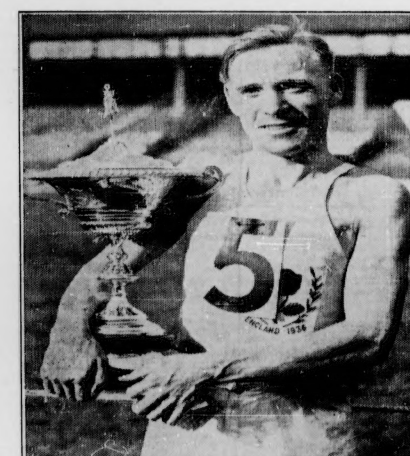

PICKWICK CENTENARY CELEBRATIONS

A number of centenary celebrations are taking place in England in connection with Charles Dickens and his famous "Pickwick" characters. Here is the original Pickwick coach, the "Commodore," passing over Westminster Bridge, London, for a run to Rochester as part of the celebrations. The coach left Charing Cross, close to the site of the old Golden Cross Hotel from which the Pickwickians started on their journey one hundred years ago. On board the coach are several prominent personages dressed as Pickwick characters.

Perhaps, after all, there is something in the theory that if you live with an animal long enough you come to resemble it.

—Fleegende Blätter, Munich.

SETS NEW ENGLISH RECORD

W. E. Eaton of Bedford Harriers smiles into the camera after winning the Ten Miles Running Championship at the English Amateur Athletic Association meet at the White City Stadium, London. Eaton broke the existing record, covering the distance in 50 minutes 30 and 4.2 seconds.

TRAPPER FINDS TWO LYNX  
IN ONE OF HIS TRAPS

Strange things sometimes happen in the trapping game. Here are two unusual incidents.

Leo Campbell, trapping on the British Columbia side of the boundary line, was surprised on making his rounds to find two lynx in the same trap.

Johnny Campbell, who traps across the Smoky, also had an interesting experience when he found two rats in the one trap.

So far as known, this is the first time that such unusual incidents have happened in this part of the Peace River.

"Mr. and Mrs. Hal MacLean, Wingham. "During the evening, a granddaughter, Mildred Henning, contributed two solos, playing her own accompaniment on the guitar.

"Mr. and Mrs. Henning started farming 50 years ago on the sixth line, Turnberry. About 16 years ago they retired to Wroxeter. Their many friends in the community extend congratulations and good wishes for many more years of happy married life."
